

AFGHANISTAN RECONSTRUCTION TRUST FUND (ARTF)

Gender Working Group Terms of Reference

Updated February 2018

Background: In response to an ARTF Steering Committee decision, it was agreed to establish a Gender Working Group (GWG) as a technical platform to discuss important gender related issues which will leverage the Strategy Group (SG) and the Steering Committee (SC) to translate its proposal into policies and actions, when necessary. Recognizing that other gender working groups exist in Afghanistan, the ARTF GWG will focus its discussions entirely on issues relevant to the ARTF portfolio.

The GWG is chaired by the World Bank as ARTF Administrator, with a semi-annually rotating co-chair from one of the ARTF donors. The GWG will consist of interested donors with necessary gender expertise, and technical capacity on the ground in Kabul to participate in and provide input to ongoing discussions. It will draw on the knowledge and expertise of donors to strengthen the ARTF's gender focus. The GWG meets in Kabul at the technical level on the first Tuesday of every month. The meeting invitation and agenda will be circulated a week before the meeting. Meeting minutes will be drafted by the Administrator and shared with GWG members within a week of the meeting.

The GWG will provide a brief report on its work to the SG. This will become a standing agenda item for the monthly Strategy Group meeting. The GWG will agree on the issues to be reported to the SG by the ARTF Administrator. On exception, a detailed point of discussion can be raised at the Strategy Group on a matter of particular importance.

The ARTF Results Management Framework identifies gender as a *special theme*, which will be subject to more detailed and disaggregated reporting on performance. The new World Bank Group (WBG) Gender Strategy emphasizes the importance of defining the gender gaps that the WBG's Country Partnership Frameworks (CPFs) focus on, the approaches to address and track them in the analytical and operational portfolio, as well as clear result-chains on gender equality at the project and strategic level.

Scope of Work: The GWG will: (i) discuss the gender focus of the ARTF Partnership Framework and Financing Program (formerly known as ARTF Financing Strategy), Incentive Program, and Investment window Projects; (ii) review gender aspects of ARTF-financed activities at both design and implementation stage, with donors invited to review draft project documents and provide gender inputs and analysis at an early stage; (iii) share knowledge and expertise on innovations in gender as they relate to the ARTF; (iv) propose recommendations on how gender aspects can be better captured in the ARTF Results Management Framework; and (v) provide support for gender mainstreaming in ARTF portfolio management, pipeline development and analytic studies.
